

Nature highlights

Nature, No. 1 weekly international science journal

First published in 1869, Nature is the leading weekly interdisciplinary science journal containing some of the most important and influential papers across all areas of science and technology on the basis of its originality, importance, timeliness and surprising conclusions. The quality and prestige associated with Nature is unsurpassed: it's our commitment to publishing ground-breaking research whilst maintaining a rigorous editorial process that has resulted in Nature being the most highly-cited multidisciplinary journal. Since launching in 1869, Nature continues to inspire and inform researchers, clinicians, academics and industry experts worldwide.

UPM now has access to this high impact journal and this is essential for your research and study.

Don't miss out any volume!
